PROFILE

I am Anshul Bhardwaj, recently completed my bachelors in technology in the field of Information Technology from Bharati Vidyapeeth's College of Engineering, New Delhi. Hardworking and passionate job seeker with strong organizational skills. Ready to help team achieve company goals.
Motivated to learn, grow and excel in the field.

PROFESSIONAL EXPERIENCE

07/2022 – 09/2022
New Delhi, India

Front-End Intern
OriginCore Tech
- Developed using CSS,HTML and JavaScript, to enhance user experience on web pages.
- Worked with senior developers to edit some existing projects.
- Participated in weekly meetings to present design ideas and showcase finished assignments.

ACHIEVEMENTS

- Solved 500+ DSA problems on leetcode. ⌂
- Participated in weekly and biweekly contests.

PROJECTS

Weather App in React
- Created a fully responsive weather app in React.js
- Fetches the current weather data for a given city using axios from Openweathermap API.
- Displays weather for given city with dynamic animated icons and background.
- **Technology used:** React.js, HTML, CSS, JSX, Axios, API
- **Source Code (Github)** ⌂
- **Live app** ⌂

2048 Game in Javascript
- Implemented a famous mathematical board game called 2048.
- A tile sliding block puzzle where the user's objective is to combine grids to create a tile with the number 2048. However user can continue the game and create up to 8192.
- **Technology used** : HTML, CSS, JavaScript
- **Source Code:** ⌂
- **Play the game here** ⌂

Hotel Management Application in C#
- Implemented a Hotel Management System using C#, database created in PostgreSQL, SQL connectivity with ADO.NET and Npgsql package.
- Supports features such as new user registration, new customer registration, editing and displaying employee details and allotting rooms with updated check-in and check-out dates.
- Hotel Management System ⌂

- **Technology used :** C#, .NET Framework 6.0, ADO.NET, PostgreSQL

Quiz Application in Java with PostgreSQL Database
- Implemented a Quiz app using core Java concepts.
- An interactive quiz app in Java made using swing. Contains a question bank database using PostgreSQL and managed using PgAdmin4.
- Allows registering as a new user. Requires login through admin credentials to delete or add new questions to the database.
- Supports features like adding new questions to the database and deleting faulty questions.
- Quiz App in Java ⎘
- **Technology used**: Java, PostgreSQL, PgAdmin4, JDBC

EDUCATION

2019 – 2023 Paschim Vihar, New Delhi, India	**Bachelor of Technology** *Bharati Vidyapeeth's College of Engineering* • 8.98 CGPA
2006 – 2018 New Delhi, India	**High School And Standard XII Diploma** *Shri Ram Shiksha Mandir Sr Sec School* • 91.8 % in 12th standard (CBSE)

SKILLS

C++ | Data structures and Algorithms | React.js | JavaScript | HTML | Cascading Style Sheets | Node.js | Express.js | Axios | Context API | PostgreSQL | MySQL | C# | .NET | ADO.NET | Problem Solving | Object Oriented Programming | Frontend Development | Communication | Teamwork
